Strathmore, Alberta, January 25th, 1922

Today is the anniversary of Robert Burns, the famous Scottish poet. All over the world this day will be celebrated by members of Burns' societies, testifying to the ploughman poet's place among the immortals.

There had been some talk of celebrating Burns anniversary locally, but apparently the Scots hereabouts are not pernicked enough, or the idea did not strike enough of them at the same time.

The 1922 Convention of the United Farmers of Alberta is now over, and the 2,000 delegates are now back among their respective locals, to whom they will in due course give their impressions of the actions of the big gathering.

The presence of such a large number of delegates at the annual convention of the U.F.A. is a testimony to the thoroughness of the organization. With a membership of approximately 28,000, the U.F.A. now dominates the Provincial Government, and has ten members of its organization representing the Provinces in Ottawa, while the other two Alberta members are there with its support and approval.

The new experiment in Government is now having a try out under favorable conditions, and if it succeeds it will mark a new era in politics. If it does not succeed it will to a large extent be the fault of the individual members of the U.F.A., for the efficacy of the new idea depends on the transmission of the views of the people, to the legislators, through their locals and other organized groups.

The farmers' political movement is primarily a revolt against present-day economic conditions, and the placing of the farmers in political authority by constitutional means is a vindication of the British system of Government, as providing a means for the expression of the people's will.

It is interesting to think of what might have happened if the war had resulted in the triumph of Germany. If that not so improbable event had occurred we would be operating under the doctrine of the Divine Right of Kings and gatherings such as the U.F.A. Convention would have been "Verboten." In addition to which the Canadian dollar would occupy the same relative position as the German mark does now, and Victory Bonds would not be the attractive investment they are now; which reminds us that those who risked their war-made savings in war bonds are getting a better return now than those who merely risked their lives, and are now being taxed to pay their portion of Canada's national debt, which is owed principally to wealthy individual Canadians or corporations.

In this connection we are pleased to note that the U.F.A. have again been on record as in favor of the proposals for the re-establishment of the war veterans.

There is consternation in high militia quarters as to the probability of many high ranking officers losing their jobs. Putting these superfluous generals to some useful occupation would be a real economy.

The British proposals at the Washington Disarmament Conference, for the abolition of the submarine, were not adopted, which shows that some of the nations represented are not yet committed to disarmament. The expression by the various powers that the submarine would not be used against merchant shipping is bunkum, for merchant shipping is the only target presented to the submarine. War cannot be fought by air and sea, and in the recent war, when Britain threatened to hang or shoot submarine commanders guilty of piracy, the German replied that for everyone executed they would execute one British prisoner of similar rank. So how can you carry out pious resolutions in war times.

The Tax Man.—It is reported that snow staking at mining claims in the new Elbow Lake gold camp, north of here, is the most active since the opening up of Northern Manitoba as a mineral belt. Rates of claims are numerous and the prices have advanced from \$500 to \$1,500, while one claim is reported to have been sold for \$2,500.

Mr. Brown took his little daughter Nellie to a toy shop to buy her a doll for a Christmas present. "Now what sort of a doll would you like, my dear?" said he as a large assortment was placed on the counter by the shopman. After some hesitation little Nellie replied—"I think I'll have twins, please papa."

Edmonton, Alta.—Twelve and a half million pounds of creamery butter were manufactured in the province of Alberta during the past year. This is half a million pounds greater than the 1920 output, and it is expected that production during 1922 will show further increase of thirty per cent. Cheesemaking is forging ahead rapidly with an increase of 330 per cent. in 1921.

Edmonton, Alta.—Travellers returning from the far north warn all prospectors and others intending to make the arctic trip not to expect any possibility of securing dog teams in the country. The dog shortage is extremely acute.

Our store will be closed each Wednesday afternoon, from 1 p.m., until further notice, excepting on weeks on which there is a legal holiday.

NAMAKA NEWS

Mr. and Mrs. J. B. Sim attended the C.F.A. and U.F.W.A. Convention in Calgary, representing the two organizations belonging to this district. They returned home on Saturday and reported spending a very interesting and instructive time.

A dance was held in the I.O.O.F. hall on Friday last when for the kind a night it was a good number that attended. Everyone, to all appearances, had a good time.

The U.F.W.A. will meet on Saturday, February 23rd at I.O.O.F. Hall, Namaka.

Miss Margaret Sim and Mr. W. Laurie were home for the week end from the Agricultural College at Gleichen.

The hockey team did not have any practice this week. Are they reserving their energies for a big game in the near future.

Mr. Dave Amund was a visitor of Mr. J. H. Shandley for a few days.

A fine car load of prime hogs was shipped out of here on Thursday last. These were belonging to several farmers in the district and were shipped through the U.C.S.

On Friday last Nurse Moreton, of the Health Department, Edmonton, gave an instructive lecture on child welfare, which was demonstrated by moving pictures. This is a great work and we were pleased to see such a good number in attendance, although being present. She also ran off a comic film which was much appreciated by the children present.

Mr. and Mrs. Evans were visitors to Calgary on Sunday.

Miss Morrison, of Calgary, was the guest of Mr. and Mrs. W. J. McPherson over the week end.

Mrs. Morrison is home again after a brief visit to Colorado.

HERVEY NEWS

The death of Mrs. Roberts was sad to all who knew her. Her cheerful disposition and kind words made friends with all of whom she met. The last prints of grandma will long be on the sands of time.

Hervey U.F.A. met on Friday, January 26, with a good attendance. The chief order of business was the purchasing of feed and seed oats, and the purchasing of fish for the members. Several new members were added. The local scene to be in a flourishing condition, but haven't any money to loan.

Cattle are not so backing up a little. Buyers are in the field nearly every week, and a few cattle are being sold, but butter, cream and eggs are the real winners. It is coming down. Some men are houseless, and some men are house less than others. Mr. and Mrs. Norman Holmes and baby were Sunday guests at Mr. and Mrs. Hagens.

Mr. W. Laycraft has been chosen as delegate to the Trustees Convention at Edmonton, when several important issues will crop up. The prospect of throwing rural schools under municipal control is not meeting with much favor in this locality.

DALEMEAD NEWS

Mrs. E. Stewart gave birth to a son at the Holy Cross Hospital, Calgary, on Wednesday evening, the 18th. Both mother and baby are doing well.

Quite a squad of Dalemead citizens of both sexes took in the C.F.A. Convention in Calgary last week. At the election of District Directors on Friday morning, Mr. L. K. McKinnon was elected on the first ballot for the first Calgary District.

The Pioneer house has been rented for the Community house and Mr. and Mrs. Cook expect to move in the end of the present week, or the first part of next week.

Barnie Stewart is expecting to establish himself in the Stewart house this week also, so in a few days there will be a new home in Dalemead will be at a premium.

Quite a wave of what seems like "flu" is passing through the district, cutting itself especially on the Kaur's and Dixon homes.

Mrs. F. Dillon has also been under the weather for some days.

Mr. C. Caldwell returned from the States one day last week and did not forget to call up a certain home while in Calgary.

Paint Economy

The Editor, Strathmore Standard:
After being repeatedly asked how I can paint and furnish material two-thirds less than any other prices, I wish to take advantage of your paper to explain in brief.

In the early stages of my contracting I found that a rich man or company would not be overcharged and it would be a sin to do so to the poor man, so, instead of asking what I think the parties will pay, I figure carefully every detail of the work to be done, the kind of material best adapted, the cost of same. Knowing the time it will take I allow current wages, and the total of material and wages (not profit) is all my employer has to pay; thereby getting full value for his money. Paying less, he can afford more painting to protect and add value to his property. Whether it be lumber, brick, steel or cement, it must be painted to withstand the elements and prevent decay. Also, without paint, and exposed to the weather, will rust to a depth of one inch in six months. Another element one sixteenth of an inch of bricks in three years needs repointing, a lumber wall 3 ft. high needs drop siding will take two-thirds of another board and bevel siding will pull the nails one-eighth of an inch. These figures are from careful observation covering a number of years.

With insurance companies, your property, unless painted, depreciates year by year. This is true to you as an owner, and with these figures in mind, if you can have good paint at wholesale price, freight only added, also the same price provided you know what is best adapted for your particular job, at a reasonable price, can you afford to let your property rot and depreciate at such an alarming rate, whether it be a baby carriage, automobile, or building?

You receive beauty with profit, for paint properly applied adds forty per cent. value. Save the surface and you save all.

I am, at your service.

G. E. COOLIN
Painting Contractor,
Strathmore

CRAIGANTLER NEWS

The annual school meeting was held in the school house last week. D. H. Elder being elected as trustee in place of M. C. Hansen, whose time expired.

C. Johansen left for a visit with his brother and sister in the States.

L. H. Laverdson and family are spending the winter in California.

A number from the district attended the Farmers' Annual Convention. H. H. Shaw, Mrs. Ellis and Mrs. J. D. Schiller, Mr. and Mrs. D. Elder.

Mr. and Mrs. J. Edwards are spending their honeymoon quietly on the farm of P. B. Borden.

Edwards attending to her duties as teacher of Craigantler school. Mrs. Edwards intends visiting her brother afterwards, she will go on north to her husband and settle on their farm near Borden.

Victoria, B.C.—Victoria has a sunnier climate than the Channel Islands, the sunniest section of the British Isles, according to the experiments of British Columbia division of the Dominion Meteorological Service. Records kept for eleven months, in 1921, show that Victoria experienced 2,661 hours of bright sunshine, the average amount being six hours or more than sunniest Britain.

The party was in full swing when one of the guests, a lady of uncertain age was notified by the hostess to be preparing to make her departure.

"Must you really go?" asked the hostess.

"I will not stop here but be instructed another minute," declared the guest indignantly. "How dare your husband come up and ask me to take part in an ancient folk dance?"

Look up the label on your subscription and see if you are paid up. The figures after the up are the number of months of the year to which you are paid.

Vancouver, B.C.—During 1921 there were 475 manufacturing establishments in the city of Vancouver, employing 18,733 hands, with a total production of the value of \$87,264,000. In 1917 the number of manufacturing establishments in the city was 620, with 14,175 hands employed, and a production value of \$57,172,389.

UNION BANK OF CANADA HAS AN EXCEPTIONALLY STRONG STATEMENT

Bank's Position is Well Maintained, the Liquid Assets being 53.70 per cent of Total Liabilities to the Public—Resources aggregate \$152,625,386

THE balance sheet of the Union Bank of Canada, for the fiscal year ended November 30th, 1921, which was returned to the shareholders at the 57th annual meeting, held at the Bank's head office in the city of Winnipeg, on Monday, January 9th, discloses this well-known banking institution to be in a very strong and liquid position. The meeting was largely attended by representative shareholders. W. R. Allan, Vice-President, presided. H. B. Shaw, General Manager, presented the Bank's Annual Statement.

Following the shareholders' meeting, the Board of Directors elected W. R. Allan, President, John Galt, former President, retiring because of his removal from Winnipeg to Victoria, B.C., Mr. Galt remains a Director of the Bank. H. B. Shaw was elected Vice-President and will continue as General Manager.

The Bank's assets total \$152,625,386. The readily available portion of these assets represents 53.70 per cent of the Bank's total liabilities to the public, thus demonstrating that the sound position of the Bank has been strongly maintained.

A very strong feature of the statement is the carrying forward of \$511,686 into next year's profit account, this being \$460,660 greater than the previous year, and the largest amount in the Bank's history.

That the Bank has continued to do its full share for the commercial interests of Canada is shown by the fact that the total of these loans at the end of the year was \$62,010,007.

Grain loans total \$7,295,183. Loans to Governments and Municipalities are \$7,420,520.

Deposits totalling \$116,729,755 are reported.

Net profits for the year amounted to \$1,312,383, which is about \$300,000 less than the previous year.

Complimentary copy of our Year Book, giving statistics of the progress of Canada may be obtained from any of our branch managers.

UNION BANK OF CANADA

CARSELAND NEWS

The eighteen months baby of Mr. and Mrs. Frank Nash passed away at the Holy Cross Hospital, Calgary, on Tuesday evening, the 17th. Tubercular meningitis was given as the cause of death. The little chap had only been sick a short time. The funeral took place from the Armstrong Funeral Parlors on Wednesday afternoon. Interment taking place in the Mount cemetery. Rev. F. T. Cook was the officiating minister. We take this opportunity of expressing to Mr. and Mrs. Nash, the sympathy of the neighborhood.

Among those taking in the C.F.A. Convention last week were: Messrs. C. A. and L. A. Phillips, Nash, Dufford, Alf. Anderson, S. Nelson, G. C. Melendy, Kruse, Groves and Cook.

The Ladies Aid met at the home of Mrs. Crumby on Thursday afternoon, when, owing to the threatening storm, there was not a large attendance. Those present, however, enjoyed the hospitality of the hostess.

Quite a crowd from Carseland took in the dance at Dalemead on Friday evening.

Mr. and Mrs. W. L. Brown are expected back from the coast in a day or so.

Mr. F. T. Cook, who has been pastor of the Carseland Methodist Church for the last sixteen months is severing his connection with the Carseland Circuit at the end of the present month, after which time the Ministerial supply will be in the hands of the chairman of the Calgary District, who at the present time is Rev. Mr. J. Coulter. Mr. Cook is going to reside at Dalemead and will hold the position of Community Secretary, or what will probably be known as the Secretary of the Dalemead Community Institute, including regular Sunday School and Church services. Mr. Cook will hold his final service at Carseland on Sunday afternoon, the 26th.

Calgary, Alta.—The enrollment in Calgary schools for the term just opened was slightly more than 12,000, an increase over last year of 1,111. There are 244 teachers in the employ of the school board, 272 of these being engaged in the public schools.

Average attendance of school children during the month of December was 91,656.

The G.W.V.A. are putting on a Noveltty Dance on Friday of this week, in aid of the Hall Funds. A good time is assured.

Mr. A. H. Rosenbaum, of Omaha, Nebraska, was in the district last week, looking over his farm holdings east of Strathmore.

Mr. M. J. Hirtle has taken over the ownership of the moving picture at Strathmore Memorial Hall, having put through the deal with Mr. Don Newirth last week. The latter will continue to operate the pictures. The running of the movies is attended by considerable expense, and we trust the people of the town and district will continue to give their support, more especially as Mr. Hirtle intends to show none but the best pictures.

A new venture was commenced on Monday in the operation of an express and messenger service between Calgary and Strathmore daily. This should fill a felt want, and the proprietors, Messrs Jernigan and Gunningham, have already been assured of good support. The service commenced on Monday of this week, and will be continued daily.

Mr. Jim Chappell, who, with Mr. Chappell, returned to the Old Country last year, writes to a friend here that he is erecting a house on the Canaan farm, and that it is attracting much attention.

Mr. H. Akerman contemplates installing a public sale in front of his barn, conditional on getting the town's permission.

Remember a boy and his dream? Of a great world, and the wonderful things you'd do, and how you'd come home again some day famous and rich, and all the folks would be at the station with flags and a band, and she would be there waiting. If you've ever been young, ever dreamed of life and love, see Charles Bay in "Homer Comes Home". Also see the DeLaveys in "Kids is Kids", and Paramount Travel Pictures, Country Store night. Valuable articles given away. Dancing after the show till midnight. 25c and 50c admission for whole evening. 25-14

The Ugo-Mo Club has booked the Memorial Hall for a dance on St. Valentine's Day, February 14. An interesting lecture was given in the Memorial Hall last Thursday evening by Miss Moreton, public health nurse, under the auspices of the Women's Institute. Despite the coldness of the weather, there was a good attendance, and the lecture which was very interesting, was illustrated by moving pictures.

Mr. John Hyde is now back on the farm at Andromeda, after about a year's absence in the States.

Head Hunting in the Gatineau

(1) Blue Sea Lake.

(2) Below the Pagan at Low.

To a great number of people, the Gatineau is a term, a name, a vague name, "somewhere in France" during the war. Even Canadians with confirmed explorative tendencies are occasionally concerned concerning that region of Quebec that stretches from the Ottawa River north to the Maniwabi and then on to a cluster of unnamed lakes in which the Gatineau River takes its rise.

There are, it is true, many Ottawans who claim to know the district for they variously contend that Chelsea, Kippure, Mouch Lake, Blue Sea, Farm Point or Kirk's Ferry is the real Paradise. But the east unsettled, untraveled country rolling away from the main road and the railway, they know very little.

The Gatineau has "got me" at last. For years I have fought against it, fighting with ill-conceived sentiment to those who year ago succumbed to its magic thrill. I have been driven into corners and forced to hear poems on the Gatineau, to see the most magnificent and tending exhibitions (faintly pictures of the Gatineau) I have narrowly escaped being up in the Gatineau, and shilling parties and campfires, and the like, and the like.

Yet, places like people, have greatness thrust upon them. The climate took me to lower circumstances where I had no control. They were two stern, uncompromising, meek.

Low nestled in the embrace of close embracing hills. Perhaps it would be more accurate to say that I was a cuddled in hills, clothed in this season in bronze, early morning, in flame and orange at noon, and in gently fading purple at sunset. Now and again they will be mist wrapped, and their outline

will push slowly from the rising

white and almost perfect in point of

Upon these hills adventures lurk

adventures expressed sometimes

the sudden view of paradise

signs, sometimes in the discovery

of a round jewel set amid

root of again with the finding of a

where prehistoric man surely

must have made his home. You may

find a skeleton.

As health and strength returned

me the Gatineau can work a

parade of healing I wandered ever

farther into the uncharted bush, and

one morning this adventure, I

climbed over a large, bleached

white and almost perfect in point of

preservation. It showed a sharp

ridge, a long frontal bone and

horns. Considering the antiquity

of the hills which geologists compute

at fifty million years, it seemed

strange to suppose that dinosaurs,

pterosaurs and Ichthyosaurs must

have left occasional remains in re-

plete sections. The skeleton proved

to be of the class of the bone

belonged.

Thrills alternately heated and

chilled me. I culminated my treas-

ure that I weighed probably 15

pounds and set out for home. As

the miles diminished, the weight of

the thing increased, until I fairly

staggered up to the veranda, con-

vinced that Atlas had a feather-

and myself upon the floor and

Exhausted but triumphant, I flowered

"See the gorgeous specimen I have

found!"

"What yer goin' to do with it?"

"I asked my host, leisurely

"Present it to the Geological

Museum at Ottawa," said I. "They

are crazy to have things like that."

The man irrigated a small section

of the soil with false Canadian be-

forewearing.

"Heads no what them fellas down

there want with that ole truck! If

I'd knowed what you was goin' after,

I could have saved you carryin' it

all them miles. I got two of them

heads in my barn."

I gaped my disbelief. Two?

Why, the district must be a regular

dinosaur preserve, equal to the

Red River country.

"Sure I'm tellin' you," protested

my host. "Rep' just fer fun, as you

might say, horse and teeth perfect-

too. Better'n yours, there."

"Why—why—what are they?" I

failed.

"Slicker heads," he returned, shift-

ing his chair. "I got a couple every-

where. You can have your pick of 'em

for that. These Zoo-managers at Ot-

tawa, and welcome."
